Clothes to Quilts

Luke Haynes

Key Details

- Sewing Machine Required
- Iron Supplied

Needs

Supplies

- Two garments that match in color and a contrasting garment
For example - Two dark blue shirts and an orange pair of pants or a red skirt and two light yellow shirts (If you don't have clothing, 2 yards of matching fabric and a contrasting color of fabric that is 1/2 yard or bigger]. I suggest shirts from op-shops or second hand stores if you don't have anything at home. I would shy away from stretchy, thick, or too slippery, as those are more difficult to work with.
- Rotary cutter
- Cutting mat,
- Ruler no less than 24"
- Black thread or thread to match the main color of the project

Intimate Improv

Luke Haynes

Key Details

- Sewing Machine Required

Needs

Supplies

- Scraps of extra fabric that make you happy (we recommend a good assortment of a lot of different colors, patterns, etc -- the goal is to bring a lot of bits so you can grab and cut pieces in a collage-style way. This is a great way to use up bits and pieces you have around in your studio as well!)
- Any random trimming / binding / buttons / embellishments / supplies you might have laying around your studio that you need to use up. Bonus points if it brings you joy.
- Any old clothing that you no longer wear and want to repurpose (we mean anything - socks, shirts, underwear, shoe laces, dresses - nothing is off-limits!)
- Glue stick
- Pins
- Scissors
- Pencil
- Sharpie / fabric marker / fabric paint (black will be the most useful, but if you have access to any other colors of fabric markers / paint, bring those too! Don't feel the need to go out and buy anything though, the method is super fun improvising with what you have as well!)
